

EXECUTIVE DESIGN PLANNERS LIMITED

EXECUTIVE DESIGN PLANNERS offers complete architectural design and Turn-Key construction services, since its inception. It has established itself in Africa as an excellent Design & Building Firm.

❖ OVERVIEW

Architectural Designing is the first and most important stage in building a house which makes you feel the uniqueness of your dream house. We design executive houses with attractive elevation and beautiful roofing. Whether you are planning a home design project or working in real estate, building plans are essential. We do not only take you through the design process, but also make it possible for you to see your customized plans in **Living colours in 2D or 3D**. We will give you vivid details of the plan and have a very good view of it before construction begins.

- ✓ **Are you Building your house?**
- ✓ **Do you want the best architect and interior designers to help you to design your house?**

Then EXECUTIVE DESIGN PLANNERS is your best choice for designing excellent and modernized building plans. Starting from floor plans and finishing your house with interior designs, fully customized as per your requirements, plot size, plot orientation, budget and style. Our experienced architects will design your house with modernized building plan. Our structural Civil engineers will ensure that your house is strong and stays with you permanently. Our Electrical and Plumbing designers will provide the excellent electrical and plumbing solutions to your house and most of all give you maintenance free. All aspects of potentially Complex projects, from design through construction, can be managed by our knowledgeable professionals. Trust us of quality and professional work.

We will listen to you and serve you as your advocate throughout your project to:

- Address compliance with state and town regulation
- Coordinate all technical and aesthetic aspects space
